

The Haga Haga Meeting

WRSA Border Chamber

On the Morning of the 17th of May 2017 we had the pleasure to have the WRSA Border Chamber meeting on the incredible beachfront of Haga Haga at the Country Club, where everyone was very friendly and welcoming. We had three very talented speakers giving us some pointers about our game farming and some other interesting information about our surrounding area. The weather turned out perfect as we enjoyed boerewors rolls out on the deck after our presentations and overall the day was enjoyed by all who attended.

Speakers:

Kei road farmers – Roger Ellis

- Roger Ellis is an adventures botanist who taught all of us a thing or two in our last meeting, this man has an ambitious and diligent personality and controlled the entire room with ease, his presentation was very resourceful and definitely an eye opener for some of our new members.
- We had the privilege to learn about longevity of grasses, different grass growth forms, morphology of grasses and leaves, including the anatomy, the structure and the functioning of different grasses.

Feeding of game – Rob Phillips

- Rob Phillips is the technical manager for Meadow Feeds which is the market leader in the Southern African animal feed industry. His company produces a variety of specialised diets and custom feed mixes for the poultry, dairy, ostrich and swine industries.
- Rob is a hardworking and reliable man and has come a far way with making sure we only feed our game the best pellets.
- We were enlightened by the presentation Rob gave us on different feeding types and the differences between them as well as feeding strategies and sensible points on placing of feed.

Predator Control – Nick

- Nick is a very intelligent and practical Predator Controller. He gave us a wide variety of ways to prevent predators from getting into our game land and ways of trapping them. He is a very inspiring man and very talented in the work that he does. He has a great knowledge of what he is doing in this industry and is something that we should all look into getting for our farms safety and the safety of our game.
